2. Home Page

2.1 Home page and Start Inspection

In the Home page of Inspection Officer two tabs are shown. They are,

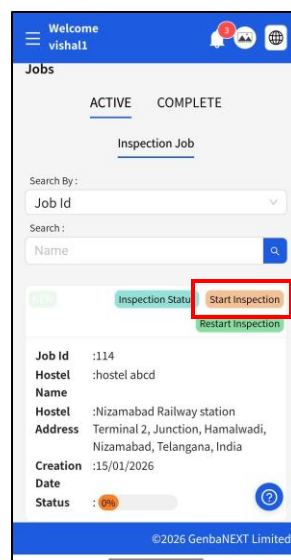

1. **Active tab:** Shows list of hostel inspections to be completed by Inspection Officer. It shows list of hostels whose inspection is yet to be started and which are in progress.
2. **Complete tab:** Shows list of hostel inspections that are completed.

Start Inspection: To start the Inspection Job there are two ways to start the job. They are:

1. **Active jobs tab:** In the "Active" jobs tab click on "Start Inspection" to start the job.

1. Click on Inspection Job

1. Click on Start Inspection to start the job

2. Bell icon: This icon is located at the top right of the screen. If a new hostel is assigned for inspection, the bell icon shows a alert sign. The number on the bell icon corresponds to the number of new hostels assigned for inspection. The user can click on the bell icon to open the list of hostels assigned for inspection. Further, on clicking any particular notification in the list will lead to start of inspection for the particular hostel.

Click on this icon to open Notifications list

3. Inspection Job

When the Inspection Officer clicks on "Start Inspection" then Inspection Job opens with 5 steps to be completed. These are:

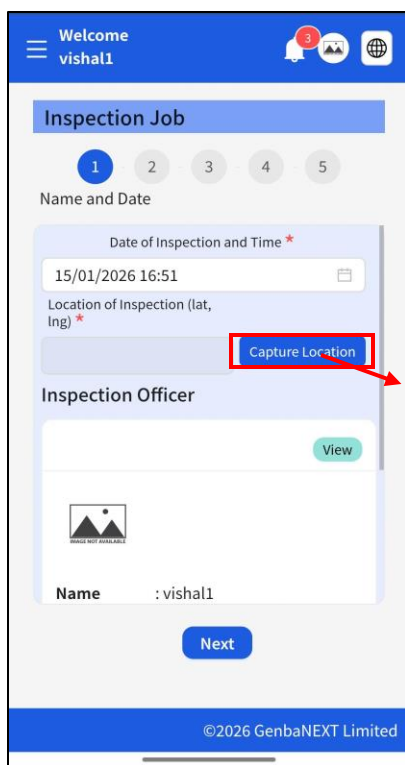

1. Name and Date
2. Details
3. Findings
4. Confirm
5. Complete

Step 1: Capture Location

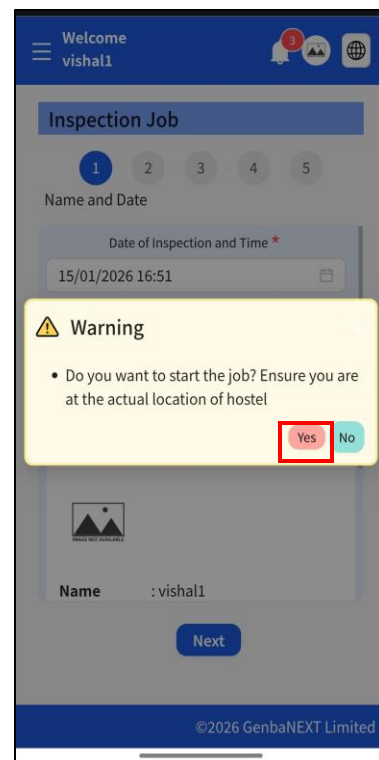

When the user in this page, the first thing the user should do is give permission for "Capture Location" button.

Follow points 1 to 5 shown below for giving permission to the application to capture location.

Mobile view:

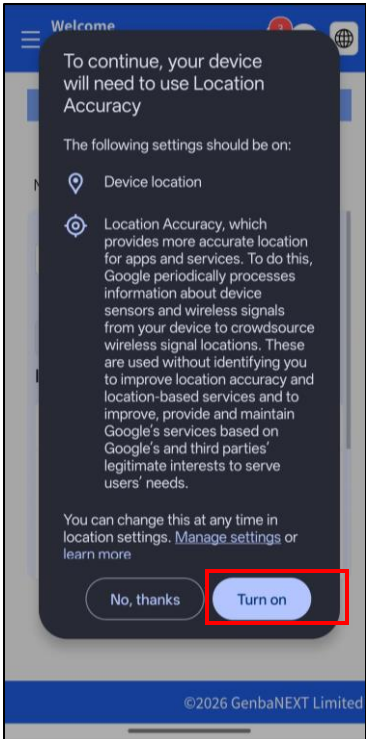

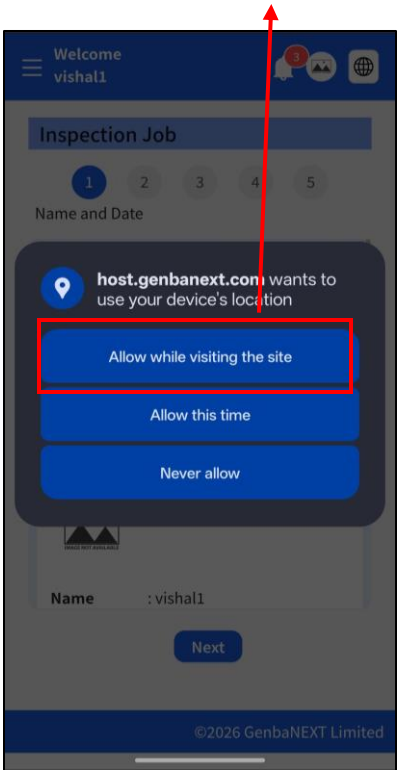

1. Click on "Capture Location" then a dialog box appears with "Yes" and "No" options

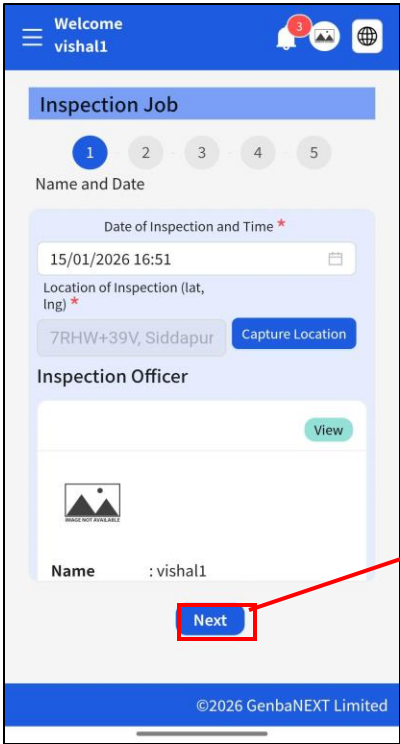

2. Click on "Yes"

3. Inspection Job

3. Click on "Allow while visiting this site"

4. Toggle this button to give permission for Capture location

5. After capturing the location click on "Next" to proceed to the next step

3. Inspection Job

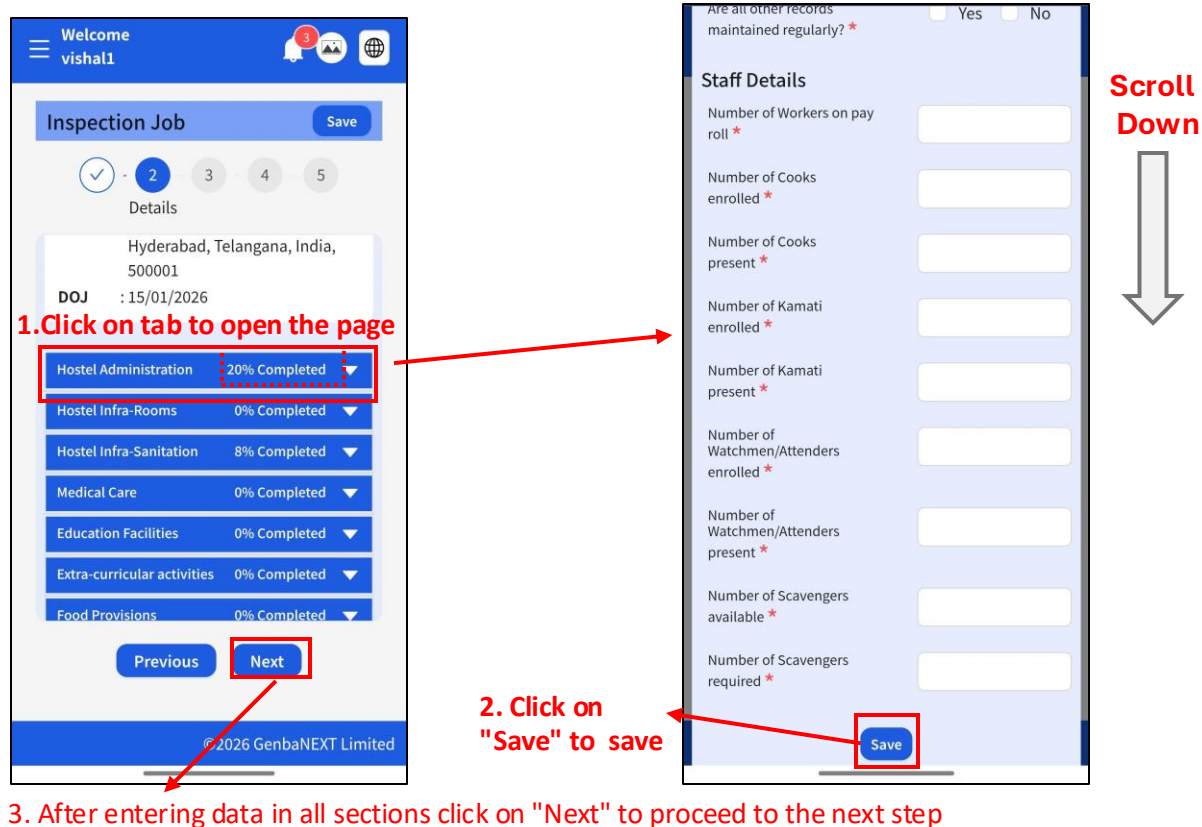

Step 2: Details

In Step 2, There are 10 sections to enter the data and each section has progress number indicating how much data is filled in that particular section. "100% completed" message on the section implies all the data is entered in that section.

The 10 sections are

1. Hostel Administration
2. Hostel Infra-Rooms
3. Hostel Infra-Sanitation
4. Medical Care
5. Education Facilities
6. Extra-curricular activities
7. Food Provisions
8. Safety and Security
9. Conduction Meetings
10. Feedback

Each section has a "save" button. User can save it and come later to complete entering the details. For each section percentage of entries filled is always shown as seen in below image.

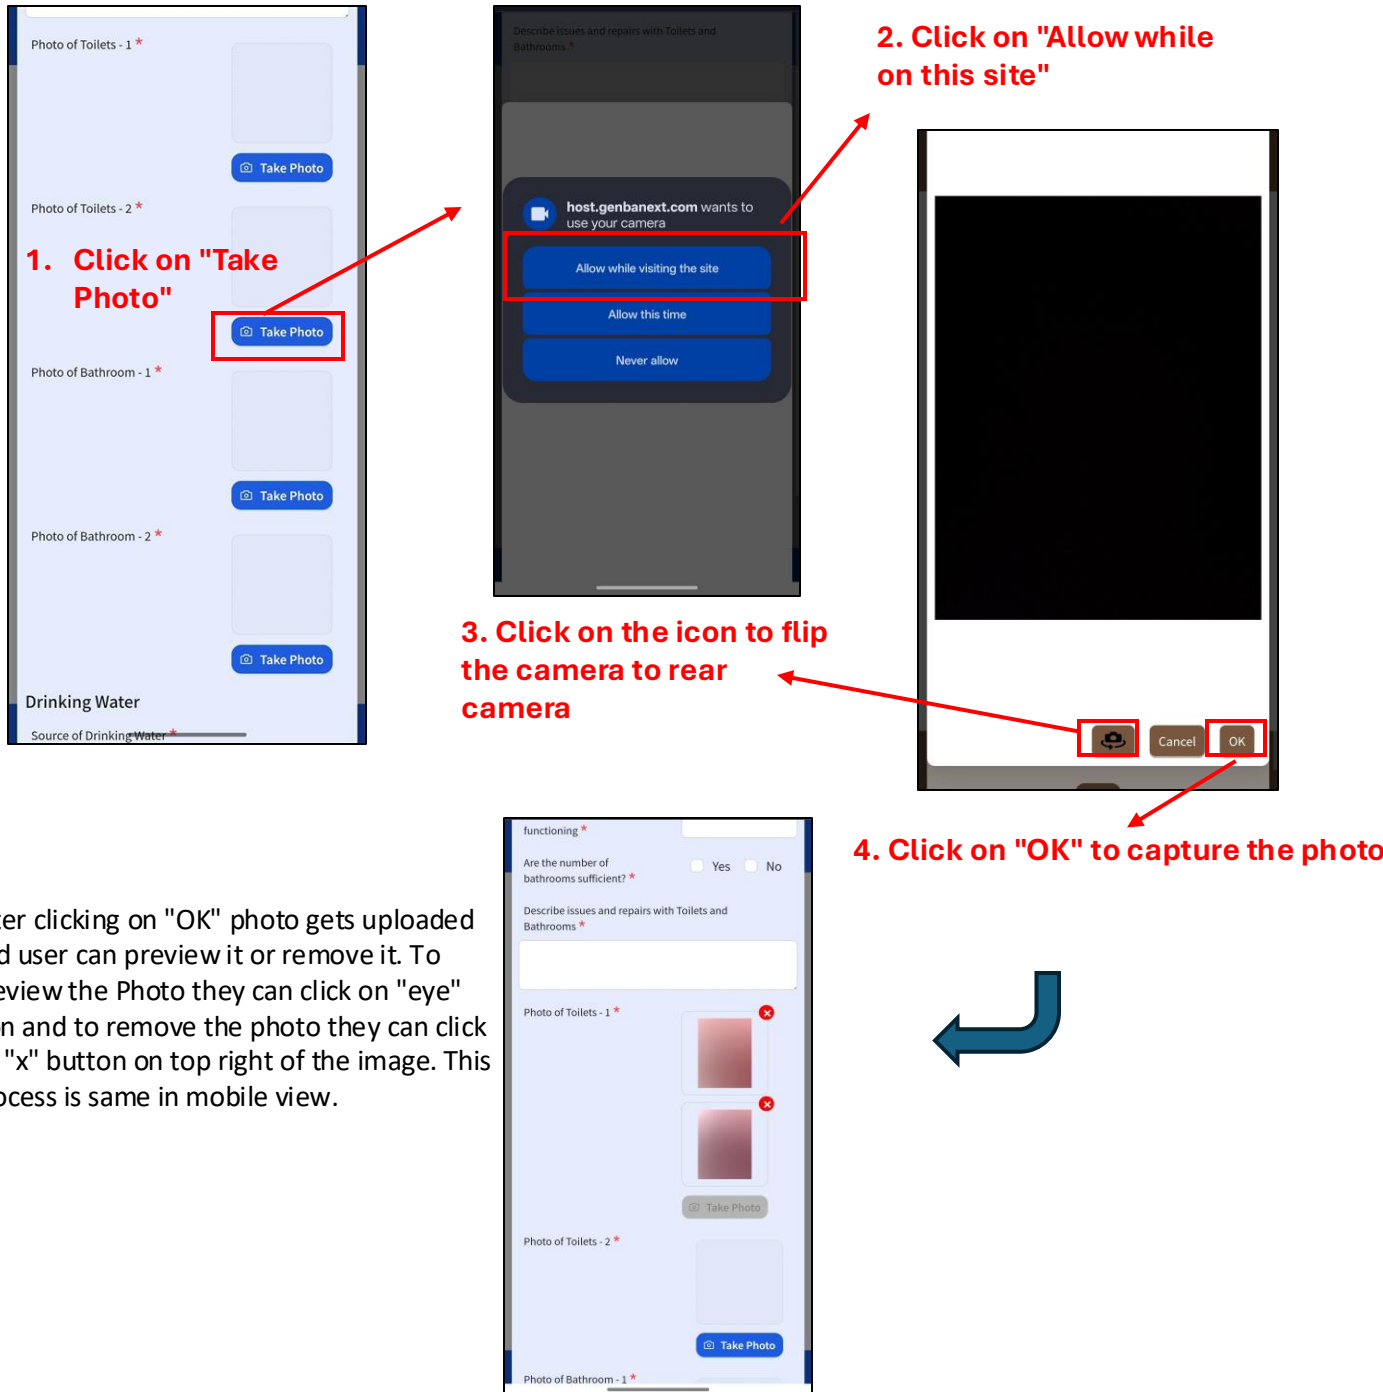

Note: All the 10 sections should have 100% completion for the user to proceed to next step.

3. Inspection Job

Take Photo

The steps to Take a photo for the field which have "Take a photo" button in step 2 and 3 fields:

Click on the "Take Photo" and a permission box appears. Follow points 1 to 4

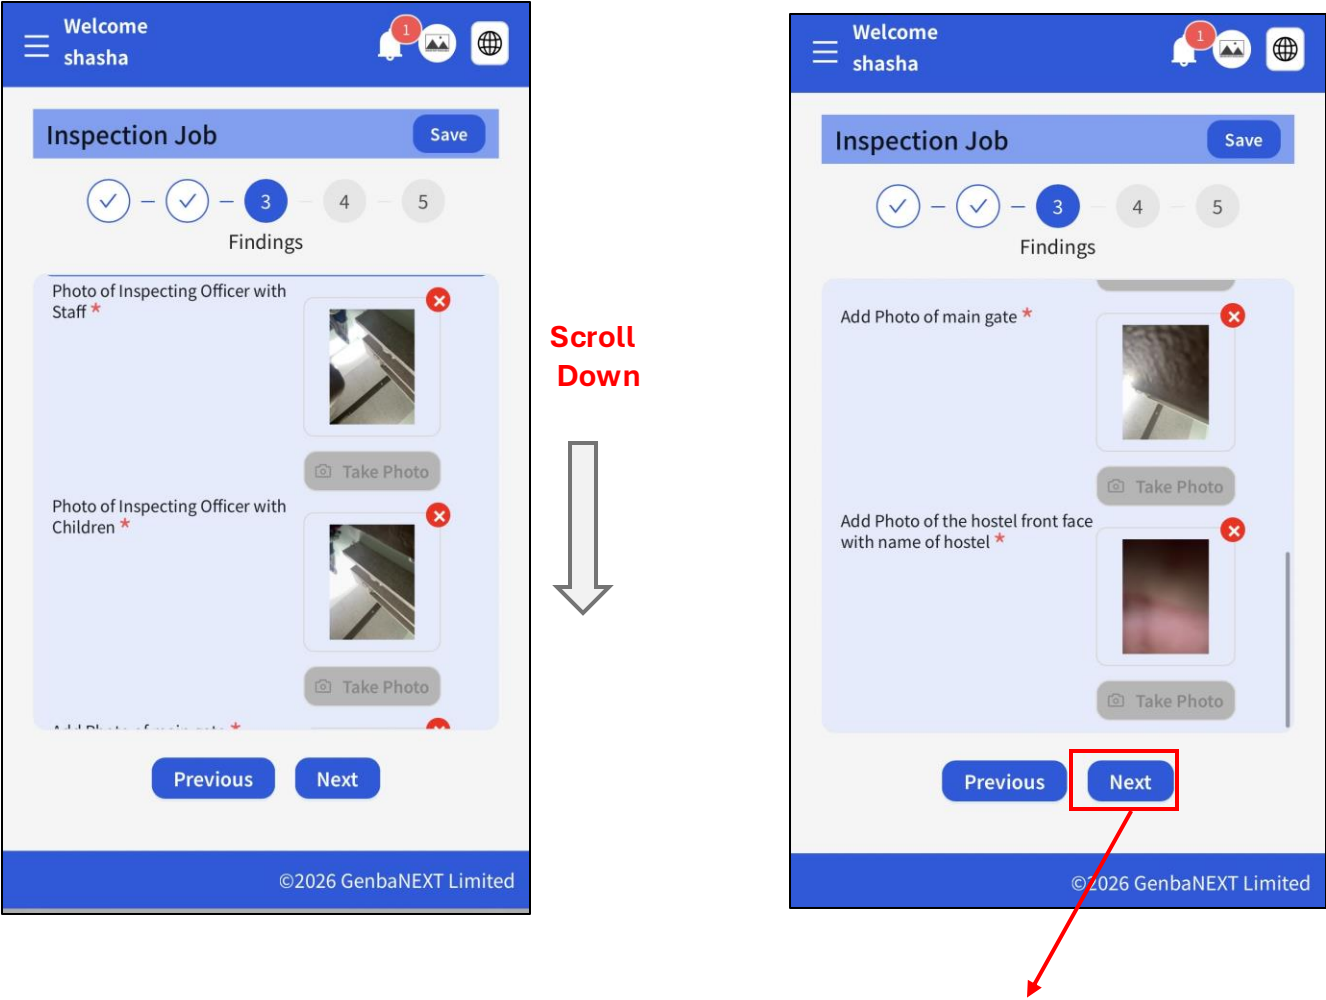

3.Inspection Job

Step 3: Findings

In Step 3, Add the data and take picture for the required fields.

Here user can click on "Save" to save the data and come back later to finish the job

After entering data click on "Next" to go to next step

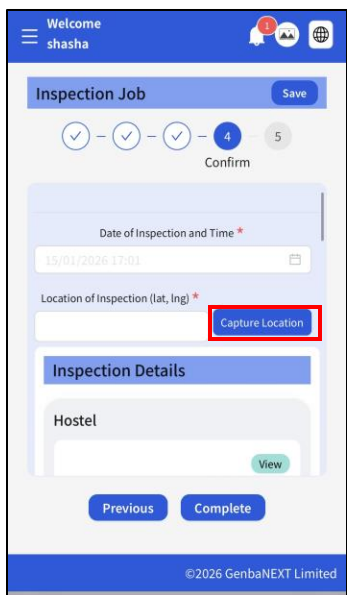

3. Inspection Job

Step 4 & 5: Confirm and Complete

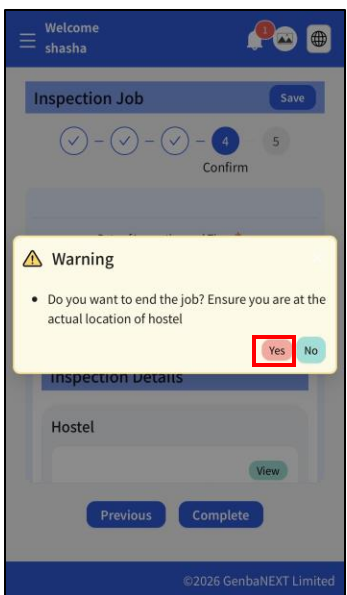

In Step 4, the user can check all the data entered, and if they want to change any field, they can click on "Previous" to go back and update the data.

After verifying that all data is correct, the user can click on "Capture location" to capture the location and then click on "Complete" to proceed to the completed step and finish the job.

The completed job can be seen in "Complete" tab of Inspection jobs.

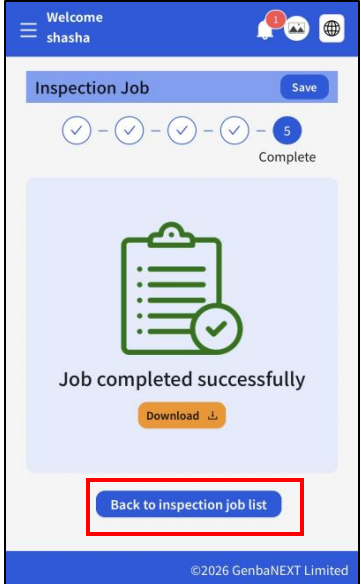

1. Click on "Capture Location"

2. Click on "Yes"

4. Click on "Yes"

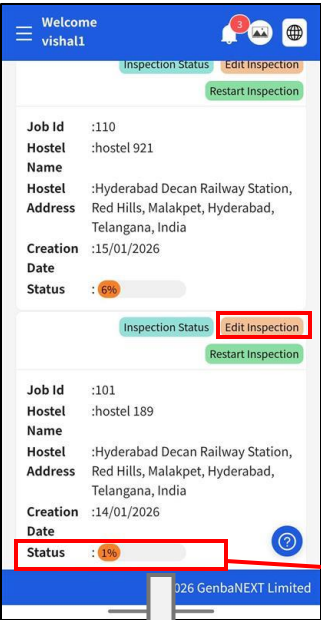

3. Click on "Complete"

5. Click on "Back to Inspection job list" will take you to completed page

3. Inspection Job

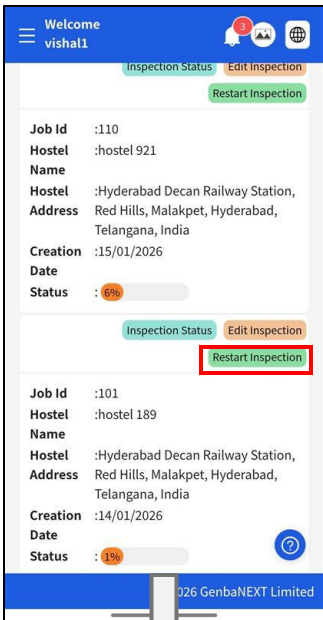

Edit and Restart Inspection Job

- 1. Edit Inspection:** If the user saves the job mid-way and wants to continue later then the user can click on "Edit Inspection to continue the job from the last saved section. For example- Hostel Infra-Rooms, the number of fields build corresponds to complete shown on the tab.
- 2. Restart Inspection:** If the user wants to restart the Inspection job again then the user can click on "Restart Inspection" to start the job from Step 1. All the previous data gets erased and the user can start the inspection from step 1 again.

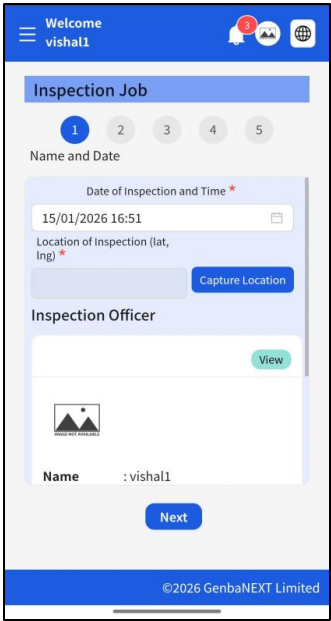

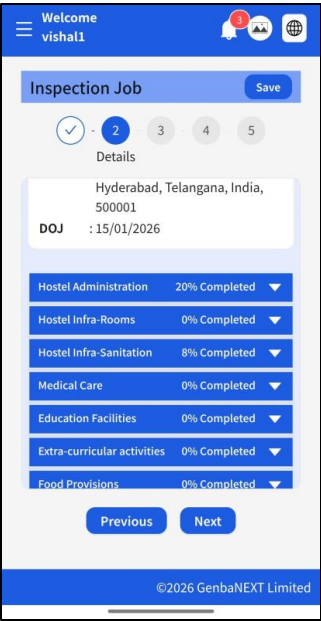

Click on "Edit Inspection"

Status bar: Shows percentage of hostel inspection fields completed out of the total inspection fields to be filled by inspection officer for the particular hostel.

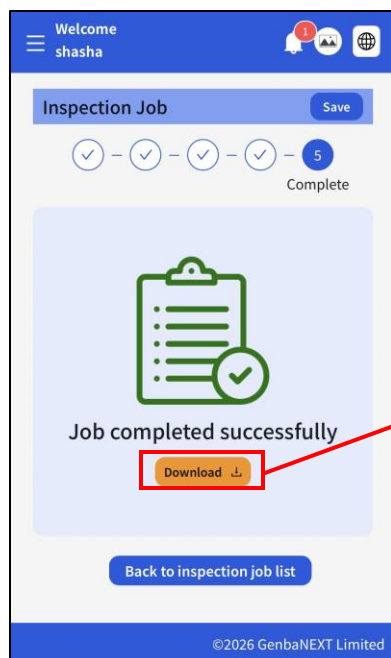

Click on "Restart Inspection"

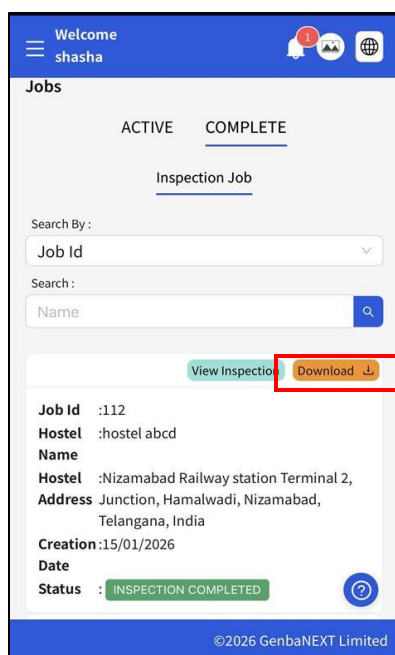

4.Download Inspection Report

There are 2 ways to download Inspection Report.

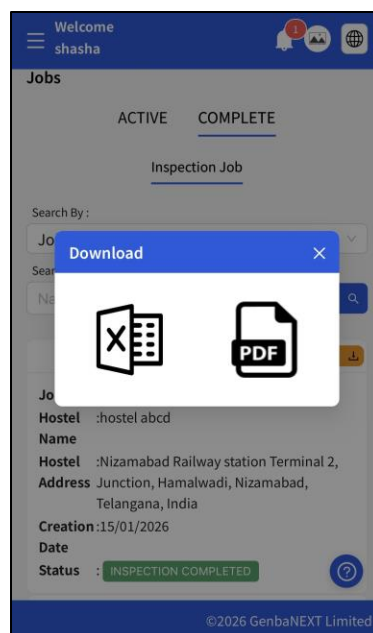

1. Hostel inspection report can be downloaded after completing the hostel inspection in step 5. Click the download button in step 5 to download the Inspection report PDF.
2. Go to complete tap in the inspection job. In action column click on download button. A pop up appears providing choice to download inspection report in Excel or Pdf format. Click on the format as per requirement.

Click
on "Download"

Click
on "Download"

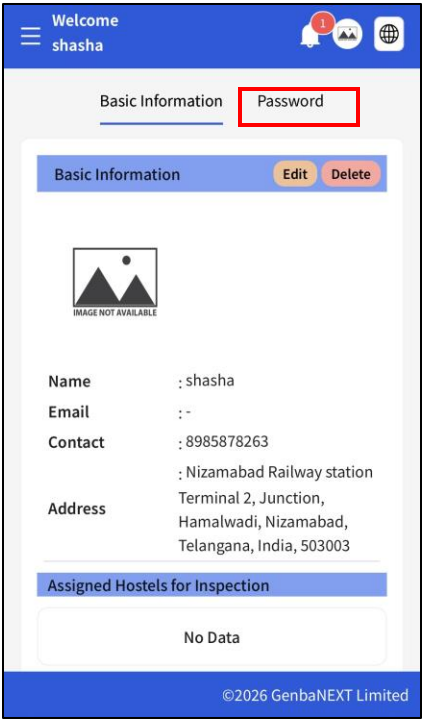

5. Password Management

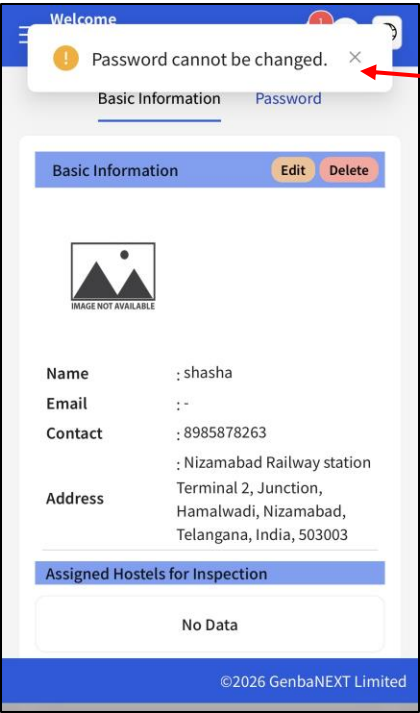

5.1 Inspection Officer Password Change

Inspection Officer themselves cannot change their password. If they forget the password, they need to approach the District Collector.

If they go to profile and click on "Password" then a dialog message will appear

1.Click on "Password"

The dialog box appears
