2. Home Page

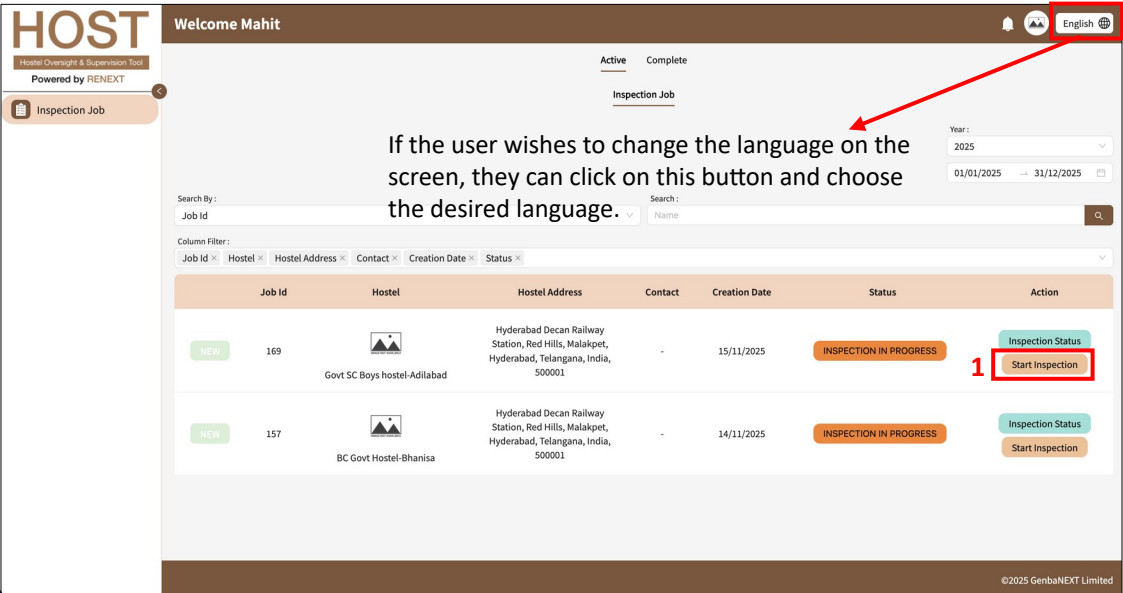

2.1 Home page and Start Inspection

In the Home page of Inspection Officer two tabs are shown. They are,

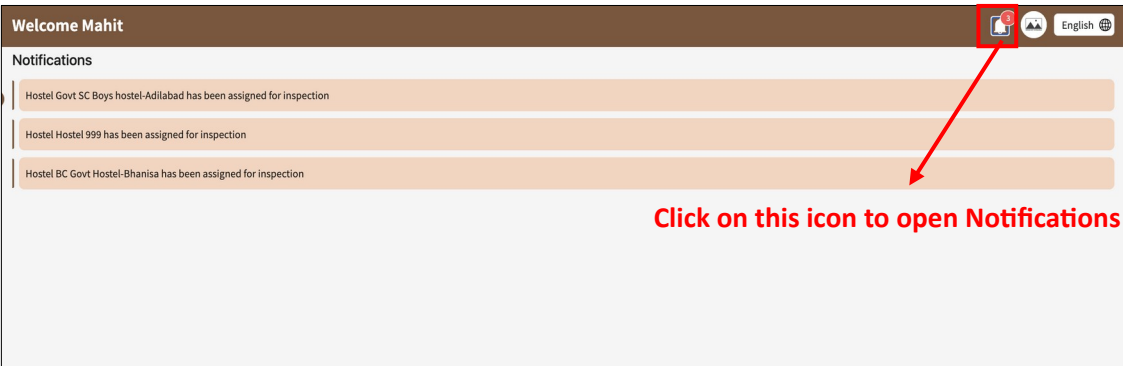

- 1. Active tab: Shows list of inspection jobs that are assigned to inspection officer to be done. It shows both inspection jobs which are not started yet and which are in progress.
- 2. Complete tab: Shows list of inspection jobs that are completed by the Inspection Officer.

Start Inspection: To start the Inspection Job there are two ways to start the job. They are:

- 3. **Active jobs tab:** In the "Active" jobs tab click on "Start Inspection" to start the job.

- 2. **Bell icon:** This icon is located at the top right of the screen. If a new inspection job is assigned, the bell icon shows a number that corresponds to the number of new inspection jobs assigned to the Inspection Officer. The user can click on the bell icon to open the list of assigned jobs, and further clicking on any particular notification in the list will lead to start the inspection job.

3. Inspection Job

When the Inspection Officer clicks on "Start Inspection" then Inspection Job opens with 5 steps. These are:

1. Name and Date
2. Details
3. Findings
4. Confirm
5. Complete

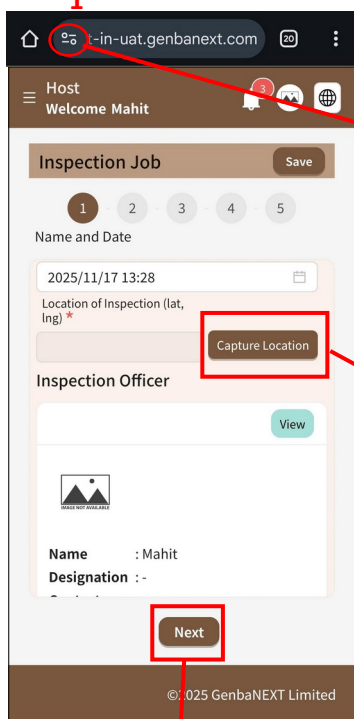

Step 1: Name and Date

When the user in this page, the first thing the user should do is give permission for "Capture Location" button.

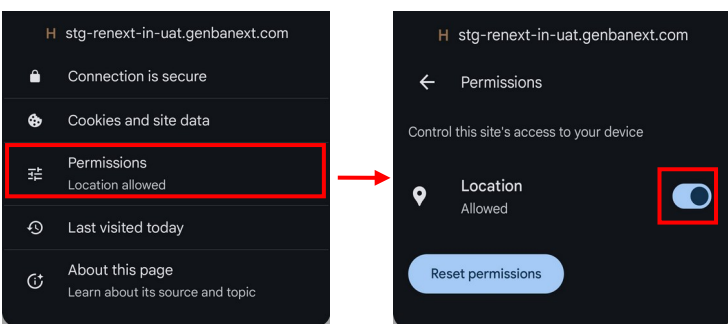

Follow points 1 to 4 shown below

Mobile view:

1

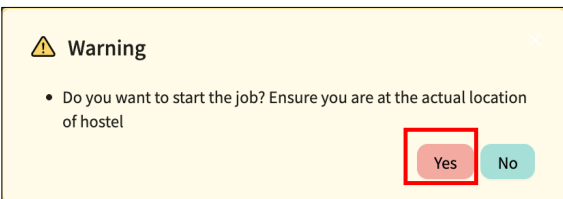

2. After giving the permission, click on "Capture Location" then a dialog box appears with "Yes" and "No" options

Toggle this button to give permission for Capture location

3. Click on "Yes"

4. After capturing the location click on "Next" to proceed to the next step

3. Inspection Job

Step 2: Details

In Step 2, There are 9 sections to enter the data and each section has progress number indicating how much data is filled in that particular section. "100% completed" message on the section implies all the data is entered in that section.

The 9 sections are

1. Hostel Administration
2. Hostel Infra-Rooms
3. Hostel Infra-Sanitation
4. Medical Care
5. Education Facilities
6. Food Provisions
7. Safety and Security
8. Conduction Meetings
9. Feedback

Each section has a "save" button. User can save it and come later to complete entering the details. To access this job user can click on **"Start Inspection"** again to continue the job in the "Active" tab list.

For example- Hostel Infra-Rooms, the number of fields build corresponds to % complete shown on the tab. Follow points 1 to 3

1. Click on tab to open the page

2. Click on "Save" to save

Scroll Down

3. After entering data in all sections click on "Next" to proceed to the next step

Note: All the 9 sections should have 100% completion for the user to proceed to next step.

Inspection Job

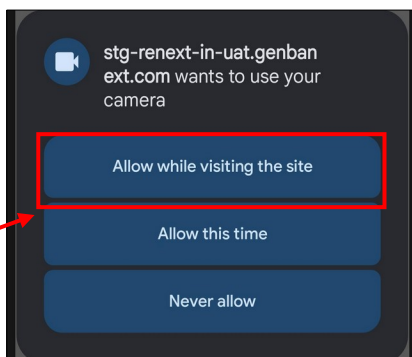

Step 2: Take Photo

How to take a photo for the field which have "Take a photo" button in step 2 and 3 fields:

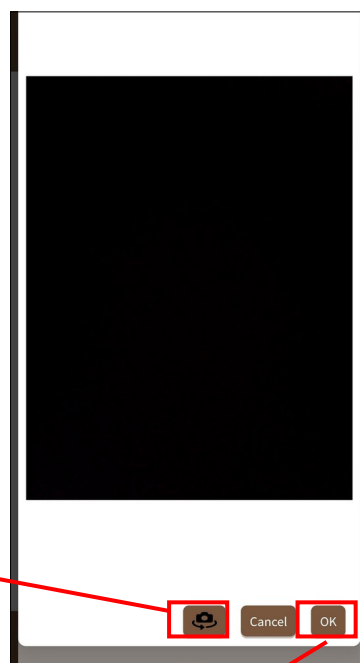

Click on the "Take Photo" and a permission box appears. Follow points 1 to 4

1. Click on "Take Photo"

The screenshot shows a mobile app interface for reporting issues. It has several text input fields and two 'Take Photo' buttons. The first 'Take Photo' button is highlighted with a red box. A red arrow points from this button to the camera permission dialog shown in the next step.

2. Click on "Allow while on this site"

3. Click on the icon to flip the camera to rear camera

4. Click on "OK" to capture the photo

After clicking on "OK" photo gets uploaded and user can preview it or remove it. To preview the Photo they can click on "eye" icon and to remove the photo they can click on "x" button on top right of the image. This process is same in mobile view.

The screenshot shows the same form as before, but now the photo has been uploaded and is visible in the 'Photo of Toilets and Bathrooms -1' field. A small 'eye' icon is at the bottom right of the photo, and a small 'x' icon is at the top right. A large blue arrow points from the 'OK' button in the previous step to this screenshot.

Inspection Job

Step 3: Findings

In Step 3, Add the data and take picture for the required fields.

Here user can click on "Save" to save the data and come back later to finish the job
